

## Our Vision and Mission

Each educator and student experiences safe and inclusive learning environments that promote intellectual rigor, inquiry, efficacy, and reflection.

The Danielson Group supports educators and school systems across the country and around the world to create professional learning systems that equip, inspire, and empower teachers in their pursuit of equity and excellence.

**Our vision, mission, and work are grounded in three simple but powerful core beliefs about teaching, learning, and the purpose of education:**

### Equity

Each and every student deserves access to excellent teaching and a world-class education, and we must prioritize students who have been least likely to receive it.

### Purposeful Learning

Excellent teaching supports deep engagement with important content and the development of identity, intellect, and character, ultimately preparing students to be lifelong learners and contribute to a flourishing society.

### Principled Teaching

Teachers lead with wisdom and empathy; make decisions and act deliberately on behalf of students; and model intellectual, moral, and civic dispositions and habits that support student success.

### A Proven Framework

We leverage the Framework for Teaching (FFT), a common language of practice that prioritizes equity and whole child development, and other best-in-class resources to support professional learning and growth.

### A Contextualized Approach

Our model and resources, including the FFT, are designed to be nimble and can be tailored to meet your specific goals and needs. We fuse our expertise with your expertise to determine the right strategy.

### A Comprehensive Solution

Our support focuses on integrating professional learning structures for educators at all stages of their career. We work with you to create and support a holistic, coherent approach to professional learning.

## Proposed Budget

The Danielson Group is pleased to share a budget estimate and project scope to support Hillside Public Schools in its efforts to strengthen professional practice, elevate great teaching, and improve outcomes for students. We estimate a total budget of \$15,000.00. This budget includes all fees and expenses. A full description of services is outlined below.
